## ***Guide***

*to Indoor Air Quality Products*

## Company History

### 1937

Arthur and Grace Redner founded General Filters, Inc. (GFI) in 1937. It was in Detroit Michigan where Arthur Redner laid the foundation and perfected the application of vehicle lube oil filtration.

### 1940's

During World War II, Arthur Redner was awarded a government contract for an engine driven portable filter device for military aircraft ground support. The implementation of wool filter elements to clean lubricating oils was applied. It was here where the Trademark General Red Top and Black Can Fuel Oil Filter had its beginning in the residential oil heating market.

### 1949

GFI expanded operations to include Canada by founding Canadian General Filters, Ltd (CGF) in Scarborough, Ontario.

### 1950's

GFI diversified into other markets by introducing whole-house humidification to the home heating industry. GFI offered six flow-through pad type design models and featured two plate type design models as well. In 1955, Arthur Redner retired. Grace Redner assumed the presidency.

### 1969

Grace Redner presides as Chairman of the Board while sons Roland and Robert P. Redner manage the company into the 1980's each serving as president.

### 1980's

The General Humidifier was known for its performance, quality, and dependability. So it was time to apply those same standards with the introduction of the General high efficiency micro-fiber media air cleaner.

### 1990's

A unique whole-house activated charcoal base air purifier was introduced to reduce the affects of the growing problem of indoor air pollution. GFI rattles the saber with its early contribution and commitment to improve indoor air quality (IAQ). Robert P. Render presides as Board Chairman.

### The 21st Century

The third generation of the Render Family leads General Filters, Inc. with the same commitment to manufacture dependable, high performance, premium indoor air quality products, fuel oil filters and accessories.

John A. Redner	President
Carl Redner	Vice President of Engineering
Robert R. Redner	Vice President of Finance and Administration

Today, General Filters, Inc. continues to provide high quality products throughout North America by way of strong distribution partnerships. The strength of market presence is buoyed by recognizable brands as GeneralAire, General, Unifilter, GarBer and other private label branding agreements.

***The air we breathe indoors is 2 to 5 times more polluted than the air we breathe outdoors!***

***The average person spends 90% of a 24 hour day indoors. Our health could be at risk!***

Improper humidity levels, dangerous gas molecules, mold spores, germs, and microscopic particulates all affect our long term health and comfort. GeneralAire has the answer to significantly reduce harmful airborne

contaminants in the air we breathe. Install a GeneralAire Humidifier, UVC Photocatalytic Air Purifier, HEPA Air Cleaner, and a MAC Series Air Cleaner for a complete indoor air quality system.

***The Center for Disease Control and Prevention categorizes indoor air pollution into three phases: Particulates, Gases, and Germs.***

35% of allergic reactions are caused by the levels of particulates in the air we breathe indoors. 34% of allergic reactions are caused by levels of microorganisms (germs) in the air we breathe indoors. 31% of allergic reactions are caused by the amount of chemical gases found present in the air we breathe in our homes and at work.

# *Table of Contents*

## ***Whole-House Humidifiers***

Improve comfort indoors and maintain a healthy environment. Quality, Style and Commitment goes into every box so you can relax. Browse the selection of Steam, Flow-Through, and Reservoir Type Models to meet your needs.

## ***Whole-House Air Cleaners***

High efficiency air filtration options for clean, healthier air. You can expect relief from indoor allergic reactions due to airborne submicronic particulates with 99.97% efficiency at .30 micron with H.E.P.A. filtration. Other models available at MERV 11, 10, and 8 for your efficiency options.

## ***Energy & Heat Recovery Ventilation***

Improve your indoor air quality introducing fresh outside air for better home comfort. An impressive selection of GeneralAire control options await your review and approval for an impressive installation.

## ***Whole-House Dehumidification***

Protect and control your indoor air from those sticky hot summer months for an efficient, comfortable, healthier home. Indoor air can become wet and musty in the summer months. We have an efficient whole-house solution for you to review.

## ***Ultraviolet Air Treatment***

Breathe a little easier and significantly reduce levels of unwanted airborne microorganisms and gaseous contaminants with ultraviolet air treatment. Impressive ultraviolet technology methods are applied in a whole-house unit to eliminate indoor air pollution like the powerful purifying rays of the sun outdoors.

## *Elite Series Steam Humidifiers*

We all have an investment in our health, homes and its furnishings. Protecting those investments from the dry air may not seem like an important task, but the effects of dry air are astounding:

- Dry nose and throat
- Itchy dry skin
- Cracking of expensive woodwork and floors
- Damage to household furnishings
- Static electricity shocks that can damage computers, VCRs and other electronic equipment
- Dry air pulls moisture from delicate membranes in your nose, throat and lungs and food doesn't taste as good
- Sleeping becomes difficult and your mental concentration is affected

## Model RS 15

### *Elite Series Steam Humidifier*

- Integral Room Steam Blower
- E2 Humidistat
- LCD user interface
- Drain tempering
- AHU Fan Relay
- Electrode Steam Generating Technology

#### Specifications

Power Supply  
120Vac 50/60Hz

Steam Output  
5.5 lbs/hr

Gallons per Day  
15.8

Dimensions  
13 1/8 wide x 23 3/4 high  
x 8 1/4 deep

## Model RS 35

### *Elite Series Steam Humidifier*

- Integral Room Steam Blower
- E2 Humidistat
- LCD user interface
- Drain tempering
- AHU Fan Relay
- Electrode Steam Generating Technology

#### Specifications

Power Supply  
230Vac 50/60Hz

Steam Output  
12 lbs/hr

Gallons per Day  
35

Dimensions  
13 1/8 wide x 23 3/4 high  
x 8 1/4 deep

## Model DS 15

### *Elite Series Steam Humidifier*

- Duct mount or remote blower kit options
- E2 Humidistat
- LCD user interface
- Drain tempering
- AHU Fan Relay
- Electrode Steam Generating Technology

#### Specifications

Power Supply  
120Vac 50/60Hz

Steam Output  
5.5 lbs/hr

Gallons per Day  
15.8

Dimensions  
13 1/8 wide x 23 3/4 high  
x 8 1/4 deep

## Model DS 35

### *Elite Series Steam Humidifier*

- Duct mount or remote blower kit options
- E2 Humidistat
- LCD user interface
- Drain tempering
- AHU Fan Relay
- Electrode Steam Generating Technology

#### Specifications

## *Elite Series Humidifiers*

We spend most of our days indoors. It is important to control the indoor relative humidity to maintain a comfortable and healthy indoor air environment.

Very low humidity in your home in winter can result in dry, itchy skin or dry sinuses and nose. Dry skin can crack and peel and will look unattractive and can lead to infections. Dry noses and sinuses may lead to a clogging or swelling and closing of the air passages and cause breathing difficulty at night. Choosing a GeneralAire Humidifier will improve your comfort indoors and maintain a healthy environment so you can breathe a little easier.

- A portion of the heated air from the furnace passes through a water-soaked pad where it absorbs additional moisture and then returns for distribution throughout your home.
- Water is metered into the KineticFlo® Trough and dispersed uniformly across the pad. Unevaporated water drains from the bottom of the unit to eliminate mineral build-up.

## Model 1000

### Elite Series Humidifier

- E2 Digital Automatic Humidistat that features a manual or automatic mode with an outdoor sensor for temperature compensating control is included.
- Fan-powered unit mounts easily on the warm air plenum and delivers 18 GPD.
- Evaporator pad replacement number GA19

#### Specifications

Unit Size  
16" wide x 16-1/2" high x 10" deep

Plenum Opening  
14" wide x 12" high

## Model 950

### Elite Series Humidifier

- E2 Digital Automatic Humidistat that features a manual or automatic mode with an outdoor sensor for temperature compensating control is included.
- GeneralAire's highest capacity model delivers 20 GPD and is ideal for today's larger homes.
- Replacement evaporator pad number GA23

#### Specifications

Unit Size  
16" wide x 16-1/2" high x 11" deep

Plenum Opening  
14" wide x 12" high

Bypass Duct  
7" diameter

## Model 900

### Elite Series Humidifier

- E2 Digital Automatic Humidistat that features a manual or automatic mode with an outdoor sensor for temperature compensating control is included.
- Bypass humidifier mounts easily on the warm or return plenum and delivers 17 GPD.
- Evaporator pad replacement number GA19.

#### Specifications

Unit Size  
12" wide x 16-1/2" high x 10" deep

Plenum Opening  
8-3/4" wide x 12" high

Bypass Duct  
6" diameter

## Model 570

### Elite Series Humidifier

- M3 Select-Control Humidistat is included.
- Bypass humidifier mounts easily on the warm or return plenum and delivers 12 GPD.
- Evaporator pad replacement number GA10.

#### Specifications

Unit Size  
11-7/8" wide x 13-3/8" high x 9-1/2" deep

Plenum Opening  
8-3/4" wide x 9.5" high

Bypass Duct  
6" diameter

## *Legacy Series Drum Humidifiers*

We spend most of our days indoors. It is important to control the indoor relative humidity to maintain a comfortable and healthy indoor air environment.

Very low humidity in your home in winter can result in dry, itchy skin or dry sinuses and nose. Dry skin can crack and peel and will look unattractive and can lead to infections. Dry noses and sinuses may lead to a clogging or swelling and closing of the air passages and cause breathing difficulty at night. Choosing a GeneralAire Humidifier will improve your comfort indoors and maintain a healthy environment so you can breathe a little easier.

## Model 81

### Legacy Series Drum Humidifier

- M3 Select-Control Manual Humidistat is included.
- High-capacity model delivers 18 GPD.
- Split drum design allows easy removal of evaporator sleeve part number 81-15.

#### Specifications

Unit Size  
12" wide x 11-1/2" high x 11" deep

Plenum Opening  
8" wide x 7-1/2" high

Bypass Duct  
6" diameter  
(bypass pipe assembly supplied)

## Model 65

### Legacy Series Drum Humidifier

- M3 Select-Control Manual Humidistat is included.
- An ideal humidifier that delivers 13.3 GPD.
- Replacement evaporator sleeve part number 65-5.

#### Specifications

Unit Size  
10" wide x 9" high x 9-1/2" deep

Plenum Opening  
7-3/4" wide x 5-3/4" high

Bypass Duct  
5" diameter  
(bypass pipe assembly supplied)

## Model 747 L

### Legacy Series Drum Humidifier

- A compact unit that mounts in the warm air supply duct when bypass or flow through installations aren't possible. This unit delivers 16.0 GPD.
- Equipped with a built-in humidity control.
- Replacement evaporator sleeve part number 727-12.

#### Specifications

Unit Size  
12" wide x 16" high x 4" deep

Plenum Opening  
10-1/2" wide x 15-1/8" high

## Model 800

### Legacy Series Drum Humidifier

- All forced warm air heating system.
- Evaporator pad replacement number 880 plates.

#### Specifications

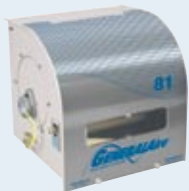

Unit Size

## ***General Series UV Air Purifiers***

The air we breathe in our homes can be up to 100 times more polluted than outdoor air, according to the Environmental Protection Agency. So let GeneralAire provide you with healthier indoor air and “Let the Sunshine In!” with GeneralAire UV Air Purifiers.

GeneralAire’s Ultraviolet (UV) light technology enables you to have whole-house air treatment energy, like the sun, to improve your homes indoor air quality.

Battle microorganisms with air treatment irradiation or disinfect your cooling coil by choosing the surface irradiation method. For best results, combine air treatment irradiation with coil surface irradiation for the most effective UV solution.

- QuartzCoat® Lamp Life Extension Coating (18,000) Hours) 2 year lamp replacement
- Power Cord Disconnect (Appliance Coupler Design)
- Max 2000 CFM or 4500 SQ ft
- 5 Year Ballast Warranty

## Model GUV25403A

### General Series UV Air Purifier

- 36 watt, 16 inch Germicidal H-Lamp UVV16HC
- 180  $\mu\text{W}/\text{cm}^2$ @1 meter UVC Lamp Intensity Rating
- 8 watt, 5 inch Super Plasma Lamp UVV5CL
- 12  $\mu\text{W}/\text{cm}^2$ @1 meter UVV Lamp Intensity Rating
- 120 VAC / 240VAC Regulating Electronic Ballast

### Specifications

## ***Energy/Heat Recovery Ventilators Whole House Dehumidifier***

Improve indoor air quality by efficiently introducing fresh outside air into the home while discharging stale indoor air outdoors. The GeneralAire HRV / ERV product line offers many desirable features that the competition does not. The patented DualTrol® control eliminates the need for fixed damper balancing of the system. The DualTrol® varies the speed of the intake and discharge motors for the precise balancing consistently.

## Models 3610 & 3220

### Energy Recovery Ventilators

- 2 operating modes (Intermittent and Continuous Ventilation)
- Variable speed
- Proportional defrost (Patent Pending)
- ISFT™ 6" (dia.) collar system
- 10-year limited warranty on ventilation motors
- 5-year limited warranty on the energy recovery core
- 5-year limited warranty on all other components

### Specifications

#### Unit Size

3610: 23-7/8" x 21-1/2" x 11-3/8"  
3220: 23-7/8" x 21-1/2" x 16-1/2"

#### Heat exchanger (L x H x W)

3610: 12" x 12" x 10"  
3220: 12" x 12" x 15"

#### CFM

3610: 30 to 160  
3220: 50 to 220

## Models 8160 & 8220

### Heat Recovery Ventilators

- 2 operating modes (Intermittent and Continuous Ventilation)
- Variable speed
- Proportional defrost (Patent Pending)
- ISFT™ 6" (dia.) collar system
- 10-year limited warranty\* on ventilation motors
- 5-year limited warranty on the energy recovery core
- 5-year limited warranty on all other components

### Specifications

#### Unit Size

8160: 23-7/8" x 21-1/2" x 11-3/8"  
8220: 23-7/8" x 21-1/2" x 16-1/2"

#### Heat exchanger (L x H x W)

8160: 12" x 12" x 10"  
8220: 12" x 12" x 15"

#### CFM

8160: 30 to 160  
8220: 50 to 220

## Dehumidifier

### Whole House

- Optional wall-mounted control
- Cleanable filter
- Frost control
- Minimal maintenance
- Quiet operation
- Energy efficient
- Fits any size home

### Specifications

#### Dimensions

19.15"H x 25.13"W x 30" L

#### Weight

150 lbs

#### Duct Connections

8" diameter (inlet & outlet)

#### Capacity

130 pints/day

# HRV/ERV & Whole House Dehumidifier

## ***Importance of Air Filtration***

While it's easy to focus on visible pollutants...smokestacks, vehicle exhaust and the outdoors, the air inside your home can be even more hazardous to your health. In fact, indoor air can be up to 100 times more polluted than the air we breathe outdoors. Studies show, that most people spend as much as 90% of their time indoors.

### ***AC500 HEPA Air Cleaner***

- Dimension (D x W x H): 13" x 17" x 22"
- Performance: 200/300CFM
- Voltage: 120 VAC @ 60 Hz
- Amperage: 1.5A
- Power Consumption : 130W
- Certification: c CSA us
- Efficiency: 99.97 @ .30 microns

### ***High Efficiency Media Air Cleaners***

- GeneralAire Media meets test standard ANSI / ASHRAE 52.2-1999.
- 10-year cabinet warranty

### ***AC22-Coming Soon!***

*High Efficiency Media Air Cleaner*

## AC24

### High Efficiency Media Air Cleaner

- MERV 11 Micro Fiber
- No-tear design
- Strong expandable media
- 75% dust spot efficiency  
1.0 to 3.0 microns

#### Specifications

Cabinet Dimensions  
17-3/4" x 28" x 10"

Duct Opening (D x E)  
Inlet: 15-7/16" x 23-13/16"  
Outlet: 15-7/16" x 24-1/2"

Filter Size  
72.4 sq. ft.

## MAC 2000

### Mega-MAC

- MERV 10 Opti-Fiber Media
- Opti-Fiber Media with low pressure drop characteristics.
- 61.8% minimum average efficiency  
1.0 to 3.0 microns.

#### Specifications

Cabinet Dimensions  
20-7/8" x 25-3/4" x 7-1/16"

Duct Opening (D x E)

## Accessories

### Model E2

#### *Automatic Digital Humidistat*

- Outdoor Temperature Compensating Feature
- Operate in Manual or Automatic Modes
- Calibration is Adjustable
- Wall or Duct Mount
- Contemporary Design for Living Space Mounting

### Model M3

#### *Select-Control Humidistat*

- Operates in Manual Mode
- Wall or Duct Mount
- Contemporary Design for Living Space Mounting

### Model G98

#### *Indoor Humidity/Temp. Gage*

- Digital Humidity Display
- Digital Temperature Display
- Wall Mounted or Table Top Positioning

### Model G99

#### *Air Filter Gage*

- Since the cleanliness of all homes are not equal, GeneralAire offers an easy-to-use, easy-to-read gage. The air filter media will load, capturing airborne particulates, raising the gage indicator to the red-zone, letting you know it's time to change your filter.

## GA19 & GA23

*Humidifier VaporPad®*

- GA19-Replacement pad for Elite Humidifier 900 & 1000
- GA23-Replacement pad for Elite Humidifier 950

## GA10/GA12/GA35

*Humidifier VaporPad®*

- GA10 fits AprilAire models 110, 220, 558, and 550, and for Honeywell models HE220 and HE225
- GA12 fits AprilAire models 224, 112, 440, 445A and 445
- GA35 fits AprilAire models 350, 360, 568, 560, 600, 768, 760 and 700 and for Honeywell models HE260, HE265, HE360 and HE365

## GA4040

*Solenoid Valve*

- 24V
- Fits AprilAire humidifiers and GeneralAire Elite Humidifiers
- Stainless steel seat

## GA50 & GA51

*24V Current Sensing Relay*

- |                                       |   |
|---------------------------------------|---|
| • GA50:                               | • GA51:   |
| • 24 volt Current Sensing Relay       | • 120 volt Current Sensing Relay                              |
| • Makes blower control isolation easy | • Makes blower control isolation easy                         |
| • Great for humidifiers               | • Great for electronic air cleaners and small load rated fans |

## 990-13 & 1099-20

*Humidifier Evaporator Pads*

- GA900-13-Replacement pad for humidifier model 709, 990, 1040, 1042, 1137 and SL16
- GA1099-20-Replacement pad for humidifier model 1099

## Minimum Efficiency Reporting Value (MERV)

An "overall" reporting value of a 52.2-evaluated air filter is the expression of the Minimum Efficiency Reporting Value (MERV). The MERV is a single number that is used, along with the air velocity at which the test was performed; to simplify the extensive data generated by the method of testing. MERV is expressed on a 16 point scale and is derived from the Particle Size Efficiency (PSE) for each of the three groups. (See Table 2: MERV Parameters.) The average PSE for each of the three groups (E1, E2, and E3) is referenced against the Minimum Efficiency Reporting Value Parameters (see Table 2: MERV Parameters.) Move up the appropriate Range Group (E1, E2, and E3) on Table 2 and record the MERV to the left of the first true statement. Do this for all three groups.

## Standard Test Airflow Rates

The Minimum Efficiency Reporting Value (MERV) must be stated with the air velocity at which the filter was tested. For example, if the filter was tested with an air velocity of 492 FPM and was found to be MERV 10, the filter's Minimum Efficiency Reporting Value would be MERV 10 @ 492 FPM. ASHRAE Standard 52.2 tests are to be conducted at one of seven airflow rates:

118 FPM (0.60 m/s)  
246 FPM (1.25 m/s)  
295 FPM (1.50 m/s)  
374 FPM (1.90 m/s)  
492 FPM (2.50 m/s)  
630 FPM (3.20 m/s)  
748 FPM (3.80 m/s)

**TABLE 1: ASHRAE 52.2 PARTICLE SIZE RANGES**

Range	Size	Group
1	0.30 to 0.40	E1
2	0.40 to 0.55	
3	0.55 to 0.70	
4	0.70 to 1.00	
5	1.00 to 1.30	E2
6	1.30 to 1.60	
7	1.60 to 2.20	
8	2.20 to 3.00	
9	3.00 to 4.00	E3
10	4.00 to 5.50	
11	5.50 to 7.00	
12	7.00 to 10.00	

## Minimum Final Resistance

Final resistance must be at least twice the initial resistance at the test airflow rate, or the values in Table 2, whichever is greater.

## Average Arrestance By Standard 52.1

Filters with an efficiency of less than 20% in E3 (MERV 1 through MERV 4) must be tested per the arrestance test of ASHRAE Standard 52.1

**TABLE 3: MERV PARAMETERS**

Standard 52.2 Minimum Efficiency Reporting Value (MERV)	Composite Average Particle Size Efficiency, % in Size Range, µm			Average ASHRAE Arrestance, % by Standard 52.1 Method	Minimum Final Resistance	
	Range 1 (0.3-1.0)	Range 2 (1.0-3.0)	Range 3 (3.0-10.0)		PA	Inches of Water
1	n/a	n/a	E3 < 20	Aavg < 65	75	.3
2	n/a	n/a	E3 < 20	65 < Aavg < 70	75	.3

14	75 ≤ E1 < 85	90 ≤ E2	90 ≤ E3	n/a	350	1.4
15	85 ≤ E1 < 95	90 ≤ E2	90 ≤ E3	n/a	350	1.4
16	95 ≤ E1	95 ≤ E2	95 ≤ E3	n/a	350	1.4

\*Information provided from the National Air Filtration Association

UV Potency Required for Microbe Disinfection (measured as microWatt seconds per centimeter squared $\mu\text{W-sec}/\text{cm}^2$ )	
Bacteria	UV Dose
Bacillus Paratyphosus	6,100
Legionnella Bozemanii	3,500
Legionnella Micdadei	3,100
Mycobacterium Tuberculosis	10,000
Salmonella Enteritidis	7,600
Salmonella Typhi (Typhoid Fever)	7,000
Streptococcus Hemolyticus	5,500
Virus	UV Dose
Influenza	6,600
Infectious Hepatitis	8,000
Adeno Virus Type 3	4,500
Rotavirus	24,000
Mold	UV Dose
Aspergillus Amstelodami	77,000
Mucor Mucedo	77,000
Penicillium Chrysogenum	56,000
Yeast	UV Dose
Baker's Yeast	8,000
Brewer's Yeast	13,200
This chart is intended to illustrate the potential effectiveness of ultraviolet wavelength exposure to various bacteria microbes and is based on credible university and independent laboratory studies. General Filters, Inc. does not make any claims to accuracy of information.	

Ultraviolet wavelength potency is measured at one meter from the lamp. An accepted standard measurement by lamp manufactures. Calculate ultraviolet radiation potency at measured distances by multiplying the potency of the lamp ( $\mu\text{W}/\text{cm}^2$  @ 1 meter) by the potency factor. Example: Multiply the GUV100A83 potency output of (180  $\mu\text{W}/\text{cm}^2$  @ 1 meter) by the distance of 2 inches (69 Potency Factor) = 12,420  $\mu\text{W}/\text{cm}^2$ .

Distance from Lamp	Potency Factor	Distance from Lamp	Potency Factor
0	354	15	6
1	127	20	4
2	69	25	3
4	32	30	2
6	20	35	1.4
8	14	39.97	1
10	14
